> The carpenters' strike is now on in earnest. Yesterday all the carpenters employed by contractors who refused to sign the new scale, which embodies an advance of 5 cents an hour, were called out. About three hundred men are affected. A committee of the carpenters visited many of the contractors yesterday and succeeded in those who signed the scale yesterday was J. E. Shover, one of the largest contractors in the city. He paid the union wage scale before, but has never recognized the union. The carpenters look upon this settlement as ndicative that the other large contractors will follow. The large contractors who have so far refused to sign are J. A. Schumacher, W. P. Jungclaus & Son, George W. Stanley, Jones Bros. and E. J. Craig, and the nonunion contractors are Henry Dolman, Charles Hamilton, John Stewart, Henry Pauli and Charles Muerge. The strike just at this time will not seri-

> ously affect the building trades, as most of the large apartment houses, flats and business blocks are not far enough along to require much carpenter work. Most of these large buildings are not above the foundations, but should the strike last a few weeks work will have to be suspended. The officers of the union say they hope to reach a settlement before the strike seriously interferes with the building industry. For the first time the contractors have organized, and a meeting will be held tonight to consider the carpenters' demands. It is thought that since the contractors have decided to act as a body a settlement will be reached without much further dif-

The carpenters held a meeting in their hall between 5 and 6 o'clock yesterday evening to listen to the report of the committee that had been soliciting contractors to sign the scale in order to find out if they could return to work this morning. Those attending the meeting were principally ing signed, and the men will return to-day. Others still refuse to sign. At the meeting the carpenters voted to stand by their demands and make no concessions. Those who work for contractors who have not signed signified their willingness to remain out until a settlement is reached.

TAILORS WILL STRIKE.

Union Men Employed by All but Two Firms Will Quit To-Day.

The Journeymen Tailors held a special meeting last night and decided to strike at noon to-day. The strike will affect all the large tailor shops in the city with the exception of A. J. Treat & Son and the Foster contracts signed with the union until next unless some of the tailors give in and sign the agreement. There are not enough union ing in brave tones and with determined lailors in the city to completely tie up the tailoring establishments, but they are so strongly organized that the business will

to a great degree be suspended. The demand of the journeymen is for a slight increase, but the real purpose of the strike is for recognition of the union. The tailors want to unionize all of the tailoring establishments in the city, and the per cent. asked is of no material consequence except and pay considerably less than union wages. W. A. Landgraf has been appointed special organizer by the National Union of Journeymen Tailors to organize the tail-ors of Indianapolis, and while the strike is on he will devote his time to getting nonunion men into the union.
